

## **Bigfoot Tattoos is happy to welcome Step 3 of BC's Restart Plan!**

We are transitioning from our COVID-19 Safety Plan to general **Communicable Disease Prevention** and will continue to monitor and review communicable disease related information issued by our regional and provincial Health Officers. Let's work together to keep everyone healthy!

**Sickness** — If you feel sick, please stay home and contact us to reschedule your appointment.

**Hand Hygiene** — We have hand washing sinks for artists, bathroom sinks for clients and hand sanitizer will continue to be provided. Cough or sneeze into your arm or a tissue please, then wash/sanitize hands.

**Clean Environment** - We will continue to maintain a clean work environment through routine cleaning processes.

**Ventilation** - When possible we will open doors and use fans to ensure adequate ventilation.

**Vaccination** - We support our team in receiving vaccinations for vaccine-preventable conditions to the extent that we are able

**Masks** - As per Step 3 of the BC Restart Plan, Masks are **recommended** in indoor public settings for all people 12 and older who are not yet fully vaccinated.

- You're fully vaccinated 14 days after dose 2
- Masks are optional for children aged 2 to 12
- Children under 2 should not wear masks
- Proof of vaccination does not need to be requested by service providers
- Some people may choose to continue to wear a mask after they're fully vaccinated and that's okay

**Questions** — If you have any concerns or questions, please feel free to contact us via FB Messenger or email.

**Thank you for your understanding and cooperation, and we look forward to continuing to create beautiful tattoos for you in our safe and healthy environment!**
